

EAST BIERLEY CE(VC) PRIMARY SCHOOL

Sports Premium Funding 2020-21

What is it?

The government have set aside money to spend on improving the quality of sports and PE in all Primary schools. This money is jointly provided by the Department for Education, Health and Culture, Media and Sports.

At East Bierley we receive £16,000 per annum and £10 per pupil (From Year 1-6).

This funding is used to ensure all our pupils have access to high quality PE, develop healthy lifestyles and promotes engagement in PE and sports.

Our long-term aim at East Bierley Primary School is for all children to be healthy, active, willing to participate in quality PE lessons provided at school and keen to engage in our house sports events.

How will it be spent?

At East Bierley we plan to spend our Sports Premium funding on:

- Enabling all children under the age of 11 to be able to swim 25 metres before they leave primary school – we are funding additional sessions for children in Year 6 to ensure they have maintained the level of swimming required and as an additional opportunity for children who had not met the standard of 25m earlier in the key stage.
- Bikeability for Year 5 children to promote road safety and confidence on the roads.
- Developing intra-school competition in a range of sports through our enrichment opportunities for all children from years 1-6. Last year we were awarded the Gold Sports Mark. Our aim is to sustain the Gold Sports Mark and target the Platinum award.
- Offer additional nurturing PE sessions to help foster good mental health through PE and providing targeted activities to encourage the least active of children to participate in support.
- Staff development – through high quality CPD to enable staff to teach high quality PE lessons and provide opportunities for our children. This CPD will enable the quality of PE lessons to continue to improve. A full review of the PE curriculum and sport at school will ensure teachers receive CPD in aspects of the PE curriculum where they feel they will benefit the most for training.
- Additional sports camps are being provided by Velocity Coaching. The sports camps are subsidised through our Sports funding in order to offer local, opportunities for our pupils. This provides opportunities for children to try a wide range of sporting activities and to work as part of a team with children from other year groups and other local schools.
- Improvements to the organisation and training of Young Leaders (Play leaders) in both key stages to ensure high quality play during play and lunchtimes for all children and opportunities for sports leadership. We are also developing a sports council to consider the competitions work and further develop sports leadership.
- Entry, staffing and transport costs for inter-school games competitions for a variety of competitions. In 2019/20, we participated in: Boys' Football, Girls Football, Cross Country, Boccia and Sports Hall Athletics. We were also due to participate in Netball, Tag Rugby and Kwik Cricket in the Summer term. Participating in a range of inclusive competitions help us to sustain the Gold Sports Mark, promote sport within school and provide opportunities for all groups of children to have access to competitive sport.
- Providing new high-quality resources which will enable all children to be included in sports and access sports that they may not normally take part in – such as Boccia and Curling.

- The opportunity to develop skills in new sports through additional coaching staff in school to provide a wider range of opportunities.
- Increasing the profile of an active mile initiative where pupils will have the opportunity to develop their stamina and speed to be able to run a mile.
- The development of a new whole school initiative (East 39) which promotes sport and exercise alongside creative arts.
