

Geography Curriculum

Our Geography curriculum fosters a curiosity about the world, awe and wonder about the diversity and beauty of the earth and develops a sense of belonging and responsibility. We want our children to develop a passion to grasp their role in preserving and protecting the planet. Our aim is to develop global citizens. It is underpinned through skills being taught and opportunities being provided to experience fieldwork.

|                  | Autumn 1                   | Autumn 2                  | Spring 1                   | Spring 2                        | Summer 1                                                                                       | Summer 2                       |
|------------------|----------------------------|---------------------------|----------------------------|---------------------------------|------------------------------------------------------------------------------------------------|--------------------------------|
| <b>Reception</b> | Local environment and maps |                           | Natural World              |                                 | Similarities and differences from around the world                                             |                                |
| <b>Year 1</b>    |                            | Where we live             | 4 seasons                  |                                 | Continents of the World (Explorers – Neil Armstrong/Christopher Columbus/Valentina Tereshkova) |                                |
| <b>Year 2</b>    |                            | Food and farming          | Non-European Study         | Coastlines                      |                                                                                                |                                |
| <b>Year 3</b>    |                            | Cities of the UK          |                            | Volcanoes and Earthquakes       |                                                                                                | Landmarks of the World         |
| <b>Year 4</b>    |                            | Climate and Weather       | Rivers and the Water cycle |                                 | The Amazon River and Rainforest                                                                |                                |
| <b>Year 5</b>    |                            | Mountains                 |                            | Climate Change and Pollution    |                                                                                                | Changes to Bradford and the UK |
| <b>Year 6</b>    |                            | The North and South Poles |                            | Interconnected World (Physical) | Interconnected World (Human)                                                                   |                                |
